Remember, YOU always have free reign to post in our River City Church group on Facebook about your event!

River City Church utilizes a tier system for prioritizing event communication. Several criteria make up the tier system including the number of people your event is applicable to, timing of your event, other prioritized event communications etc. Additionally, RCC considers broader ministry goals and values to ensure our communication aligns with church-wide initiatives. Essentially, this system helps us manage our resources (time, platforms, etc.) effectively and ensure the most important events receive appropriate attention.
